# Overview of the Bank's Statement of Assets

## ■ Results:

- Excluding FX fluctuations, the actual value increase of the Bank's assets\* amounted to ISK 119bn in H1 2010
- The effect of the appreciation of the ISK on the Bank's accounts: Kaupthing Bank's functional currency is the Icelandic krona (ISK). The ISK appreciated by 9% in the first half of 2010. The sharp appreciation of the ISK has significant negative impact on the Bank's reported asset values
- Including FX fluctuations, the value of the Bank's assets\* increased by ISK 60bn in H1 2010
- Significant value increase in the loans to customers portfolio and in shares and instruments with variable income
- Fee income generated from the Loans to customers portfolio amounted to ISK 800m covering the majority of the Bank's internal operating cost and fully covers salaries and salary related cost
- The cash reserve amounts to ISK 195bn and increases by ISK 19bn in H1 2010 despite negative impact of ISK 12bn deriving from FX changes on reported cash reserve and ISK 14,5bn cash payment as part of Arion Bank's capitalization
- Total annualized operating cost in H1 2010 was 0.28% of total assets at carrying value

- A Creditors' Report Update Meeting is scheduled at 4pm London time on 12 October 2010 at the offices of Morgan Stanley, 20 Bank Street, Canary Wharf, London E14 4AD. See announcement on [www.kaupthing.com](http://www.kaupthing.com) for further information.

# Cash in Hand

## Development in H1 2010

- The cash reserve amounted to ISK 195bn and increased by ISK 19bn in H1 2010.
  - Main factors contributing to **increase** in cash in hand in H1 2010:
    - Payments related to Loans to customers of ISK 32,5bn (principal repayments, interest payments and fee income), thereof ISK 14bn from 10 final repayments.
    - Principal and interest payments from Loans to and claims against credit institutions of ISK 6bn
    - Other cash inflow (breakdown provided on the next slide) of approx. ISK 13bn
  - Main factors contributing to **decrease** in cash in hand in H1 2010:
    - ISK 14,5bn of cash was injected into Arion Bank as part of its capitalization in January 2010.
    - ISK 1,5bn cash outflow used to support assets in the Loans to customers portfolio
    - Operating cost in H1 2010 amounted to approx. ISK 3,5bn.
- As the ISK appreciated substantially against most major currencies, FX changes amounting to approx. ISK 12bn have a negative impact on the cash reserve as it is reported in ISK.
- In 2008 and 2009, the Bank repaid priority claims related to deposits amounting to approx ISK 130bn.

# Cash Flow in H1 2010

- **1** Loans to and claims against credit institutions = 6: Principal payments (6)
- **2** Loans to customers = 32,5: Principal payments (26,5), interest payments (5) and fee income (1)
- **3** Bonds = 3,5: Principal payments (3) and interest payments (0,5)

- The decrease in ISK is primarily due to ISK 14,5bn cash injection into Arion Bank as part of the capitalization.
- The interests received on the cash reserve in H1 2010 amounted to ISK 644m.

All amounts in table in million of respective currencies as at 30.06.2010 and 31.12.2009.

# Loans to and Claims against Credit Institutions

## Development in H1 2010

- Loans to and claims against credit institutions amounted to ISK 305bn at fair value and ISK 340bn at carrying value at the end of H1 2010. This asset class is broken down in the tables below at fair value by types of accounts.
  - Unpledged loans to and claims against credit institutions amounted to ISK 39bn at fair value and decreased by ISK 15bn in H1 2010
  - The decrease in Bank accounts is mainly due to cash inflow in H1 2010 of ISK 6bn, negative FX changes and re-classification of a large account into Loans to customers.

## **Unpledged positions - overview**

### ■ Unpledged bank accounts (ISK 22bn at fair value)

- These accounts have been emptied partially or fully by the counterparty without legitimate acceptable reasons being provided to the Bank
- These are related to ca. 30 different jurisdictions and the amounts range from c. ISK 65k to ISK 8,7bn – the 5 largest covering 81% and total 40 accounts in the class.
- A substantial amount of these bank accounts have been subject to set-off in relation to derivative cases and hence the validity and legality of the freezing/seizure of cash will be concluded as part of the settlement of the derivative portfolio which is lead by Alvarez and Marsal with the assistance of external legal counsel.
- The bank accounts which are not related to derivative set-off are being handled by the Bank's internal legal counsel and the Winding-up Committee, in co-operation with external legal counsel in the respective jurisdictions, who analyze the validity of the freezing/seizure with respect to Icelandic bankruptcy legislation in coalition with other relevant jurisdictional legislation.

### ■ Subordinated loans to subsidiaries (ISK 16bn at fair value)

- Included in this category is a EUR 100m subordinated loan granted to FIH in 2005. On 18 September 2010 (an event occurring after the date of this financial information) the Central Bank of Iceland as a pledgee of the Bank's shares in FIH entered into an agreement to sell the shares to a consortium of funds. As part of this transaction the repayment of this subordinated loan has been agreed but is subject to regulatory approval.

### ■ Other Loans: (ISK 1,4bn at fair value)

- Mostly domestic claims

## **Pledged positions - overview**

- Pledged bank accounts (ISK 142 bn at fair value)
  - Collateral accounts (ISK 135bn at fair value) represent to a large extent collateral posted under derivative trades (ISK 86bn) and repurchase agreements (ISK 49bn).
- Subordinated loans to subsidiaries (ISK 125bn at fair value)
  - The subordinated loan which is classified as pledged is to the Bank's subsidiary Kaupthing Mortgage Institutional Investor Fund and is related to the issuance and structure of Kaupthing's covered bonds.

## Loans to Customers

- Loans to customers amounted to ISK 304bn at fair value and ISK 1.234bn at carrying value at the end of H1 2010.
- The portfolio is divided into three portfolios:
- The Europe and Nordic portfolios are actively managed by the asset management team and most of the loans have underlying operations or assets
- The loans in the NOA portfolio consist primarily of non-operating assets.
  - The increase in the carrying value of the NOA portfolio in H1 2010 is due to a reclassification of two accounts of ISK 115bn carrying value which as at YE 2009 was categorized in Loans to and claims against credit institutions. In addition, penalty interests are accumulating which increases the carrying value.
  - The portfolio is under the supervision and management of the Inspection Committee and undergoes thorough revision by the Committee.

All amounts in table in mISK and mEUR.

- The fair value of the Loans to customers amounted to ISK 304bn and decreased by ISK 147bn in H1 2010.
  - The decrease is driven by transfer of loans to Arion Bank, inflow due to principal repayments of ISK 29bn and negative FX changes of ISK 24bn.
- Value increase, excluding FX variations, in H1 2010 related to loans to customers amounted to ISK 18bn.
  - Europe portfolio: ISK 147bn at fair value (value increase in H1 2010 ISK 6bn)
  - Nordic portfolio: ISK 121bn at fair value (value increase in H1 2010 ISK 11bn)
  - NOA portfolio: ISK 37bn at fair value (value increase in H1 2010 ISK 1bn)

### **Loans transferred to Arion Bank**

- The pledged portfolio amounting to ISK 84bn at fair value as at YE 2009 and included a portfolio of ISK mortgage loans, FX mortgage loans and loans to Icelandic municipalities, organisations and other government related entities, which had previously been pledged by the Bank to the ICB.
  - In January 2010, when the equity injection into Arion Bank was executed, the assets of this pledged portfolio were injected into Arion Bank and are therefore not included in Kaupthing's parent company accounts as at the end of H1 2010.
- The loans in the Nordic portfolio which were injected into Arion Bank amounted to ISK 20,4bn at fair value and ISK 21bn at carrying value.
- The loans in the Europe portfolio which were injected into Arion Bank amounted to ISK 7,6bn at both fair value and carrying value.

# Europe Portfolio\* at Carrying Value – Performance

For definition of watch, view and performing, see note 13 in the Statement of Assets in the Bank’s Creditors’ Report.

\* The Europe portfolio excludes project Los Angeles and the Bank’s financing of NoHo Square (real-estate development at standstill) where the Bank has also all the equity.

# Nordic Portfolio at Carrying Value – Performance

For definition of watch, view and performing, see note 13 in the Statement of Assets in the Bank’s Creditors’ Report.

# Bonds and Debt Instruments

- Bonds and debt instruments amounted to ISK 56bn at the end of H1 2010. This asset class is broken down in the tables below at fair value by types of instruments
- Unpledged Bonds and debt instruments amounted to ISK 7,2bn and decreased by ISK 2,3bn in H1 2010
  - The decrease is driven by cash inflow from principal payments in H1 2010 of ISK 3bn
  - In addition, interest payments amounted to ISK 0,5bn and real value increase amounted to ISK 1bn
  - The vast majority of the unpledged positions are ISK-denominated and CPI linked bonds
- Pledged positions amounted to ISK 48,9bn and decreased by ISK 4,5bn in H1 2010, solely due to FX changes

- A derivative contract is accounted for as an asset if the total net position of all derivatives contract of the counterparty is in the bank's favor. Negative unpaid carrying value in the analysis of assets is therefore always counteracted by positive values of other contracts by the same counterparty.
- Provisions primarily reflect estimated creditworthiness of each counterparty but legal and valuation uncertainties are also taken into account.
  - The provision level is decided on a counterparty level, not a product level, and is reviewed regularly as the Bank progresses in the derivatives stream.

# Investments in Subsidiaries

# Investments in Subsidiaries – Development in H1 2010

- Investments in subsidiaries amounted to ISK 216,1bn at the end of H1 2010.
  - Unpledged positions amount to ISK 113,6bn and increased by ISK 86,4bn in H1 2010, driven by Kaupthing's equity stake in Arion Bank via Kaupskil ehf, which was not included in the Bank's asset valuation as at year end 2009.
  - Pledged positions amount to ISK 102,5bn and decreased by ISK 11,9bn in H1 2010
- FX changes amounting to approx. ISK 2,5bn have a negative impact on investments in subsidiaries as it is reported in ISK.
- Investments in subsidiaries are accounted for by an equity method where value is derived from subsidiaries net assets as at 30 June 2010 except for FIH which is shown as fully pledged against a loan with the ICB at the estimated value of the obligation at the reporting date. The estimated value has been reduced which contributes to the decrease in the value of the pledged positions.

# Liabilities

- the Claim Process -

- A formal process for the creditors of the Bank to file claims against the Bank began on 30 June 2009 and ended on 30 December 2009. The liabilities of the Bank are currently being determined through a formal process administered by the Winding-up Committee. Until the Winding-up Committee has taken decisions on all claims and disputes have been settled, the real and accurate amount of liabilities is uncertain.
- The estimated liability side fixed at 22 April 2009 was published by the Resolution Committee in the Bank's half year figures as at 30 June 2009. In the event there are discrepancies between the liabilities estimate presented by the Resolution Committee there and the accepted claims finally determined by the Winding-up Committee, the determination of the latter prevails.
- The total amount of claims in the claim registry as at 23 September 2010 is approx. ISK 6.442bn. Since the expiration of the time limit for lodging claims on 30 December 2009, the total amount of claims lodged has decreased by ISK 874 billion from the total of ISK 7.316 billion at that time. The aggregate amount of claims exceeds the Bank's liabilities as recognized in its balance sheet of 30 June 2009, ISK 4.129 billion.
- Priority and senior claims, lodged under article 109-113 amount as at 23 September 2010 to ISK 5.889bn compared to ISK 3.679bn as recognized in the Bank's balance sheet of 30 June 2009. The difference can in part be explained by claims lodged for deposits which the Bank has already repaid, significant amount of bond claims and some deposits claims lodged in duplicate or triplicate, and off-balance sheet items, such as claims for damages and guarantees. Furthermore, creditors generally lodge claims at maximum levels. The aforementioned claims add up to at least ISK 2.000bn.

## Breakdown of Claims against the Bank under each Article and by Type

- As at 31 December 2009, total amount of lodged claims amounted to ISK 7,316bn.
- However, as at 23 September 2010 the total amount of claims had decreased to ISK 6.442bn.
- The table below shows amounts of claims by relevant article and type as at 23 September 2010.

Type	Art. 109	Art. 110	Art. 111	Art. 112	Art. 113	Art. 114	Total

- As at 23 September 2010, priority claims lodged under article 109-112, amounted to ISK 1.180bn. The total amount of priority claims against Kaupthing Bank is thus ISK 912bn lower than presented at the Creditors' Meeting on 18 May 2010, at which time they amounted to ISK 2.092bn.
- Included in the table above is approx. ISK 101bn claim from the ICB related to a EUR 500m loan granted in October 2008 with a security in FIH shares. On 18 September 2010, the CBI as a pledgee, entered into agreement to sell the shares in FIH. The CBI's claim against Kaupthing is fully settled with this transaction and the CBI will not have a deficiency claim against Kaupthing.
  - Thus, by completion of the transaction, priority claims will further decrease by ISK 101bn.

- Please note that the decisions made by the Winding-up Committee, summarized in the table below as at 23 September 2010, may not be final. Decisions are in many cases under dispute.

Decision postponed	2.775	43.568	132.696	212.182	1.767.010	100.677	2.258.907

- Included in the table above is ISK 101bn lodged claim (thereof ISK 93bn finally accepted) from the ICB related to a EUR 500m loan granted in October 2008 with a security in FIH shares.
  - As explained on the previous slide, priority claims under article 111 in the table above will decrease by ISK 93bn at the completion of the FIH sale.

\*Adjusted amount is the total amount of all claims that decision is made on under respective Article, i.e. rejected, approved or postponed. The difference between it and total amount lodged is when the Winding-up Committee recognises a claim with different priority than claimed.

\*\* Claims here under have been rejected or moved under Art. 114 (subordinated claims). With reference to the final sentence of the first paragraph of Article 119 of the Act on Bankruptcy, etc., No. 21/1991, no decision will be made on subordinate claims.

## Claims accepted by the Winding-up Committee - Final Decision

\* The Winding-up Committee's decision is deemed final if the creditor concerned accepts the Committee's decision on its claim and he or other creditors do not object to the decision, or if objections to the decision have been received too late.

- The valuation of total assets does not take fully into account the impact of set-off.
- The real and accurate amount of set-off claims finally accepted, remains uncertain until all claims have been recognized and disputes settled by the Winding-up Committee
- The Resolution Committee has independently reviewed the list of set-off claims provided by the Winding-up Committee and currently estimates that in addition to what has been incorporated in the valuation, additional set-off effects on an approximate, rough and preliminary basis of ISK 100 - 150 billion in total on the face value of the respective liabilities.
- The exact set-off effects on the assets and liabilities side may differ and the Resolution Committee estimates that the effects on the asset side will be substantially lower since some of the assets that are subject to set-off have already been impaired or provisioned for, i.e. valued lower on the asset side than on the liability side.
- It should also be stressed that this a rough estimate, put forward by the Resolution Committee and does not reflect the decisions of the Winding-up Committee on individual claims and as stated in the disclaimer may differ from the values set forth herein.
- The real and accurate amount of set-off claims accepted remains uncertain until recognized and disputes have been settled by the Winding-up Committee.
- Set-off impacts can make a material difference to overall creditor recoveries. Further information will be provided on this matter as it becomes available.

# Operating Costs

- The table below sets out the operating costs of the Bank in H1 2010.
  - Operating costs of the Bank's operations, i.e. for the activities of both the Resolution Committee and the Winding-up Committee:

(mISK)	H1 2010
Salaries and salary related cost	325
ResCom and WuC	141
External advisors	2.407
- Domestic	511
- Foreign	1.896
Other expenses	395
VAT and other taxes	435
<b>Total</b>	<b>3.703</b>

- The annualized operating costs in H1 2010 were approx. 0.28% of the total carrying value of ISK 2.650bn as at the end of H1 2010.
- Salaries and salary related cost of the bank's employees and the cost related to the four members of the ResCom and three members of the WuC is fully covered by fee income.
- ISK 435 million, or 12% of the Bank's operating costs in the period, in the form of VAT and other taxes.
- The largest items in the external advisory costs are related to the activities of the Bank's financial advisor, forensic work conducted by the Inspection Committee and the settlement of the derivatives book.
- Other expenses include expenses related to IT services, housing, offices, custody services, travelling and other staff and administration items.
